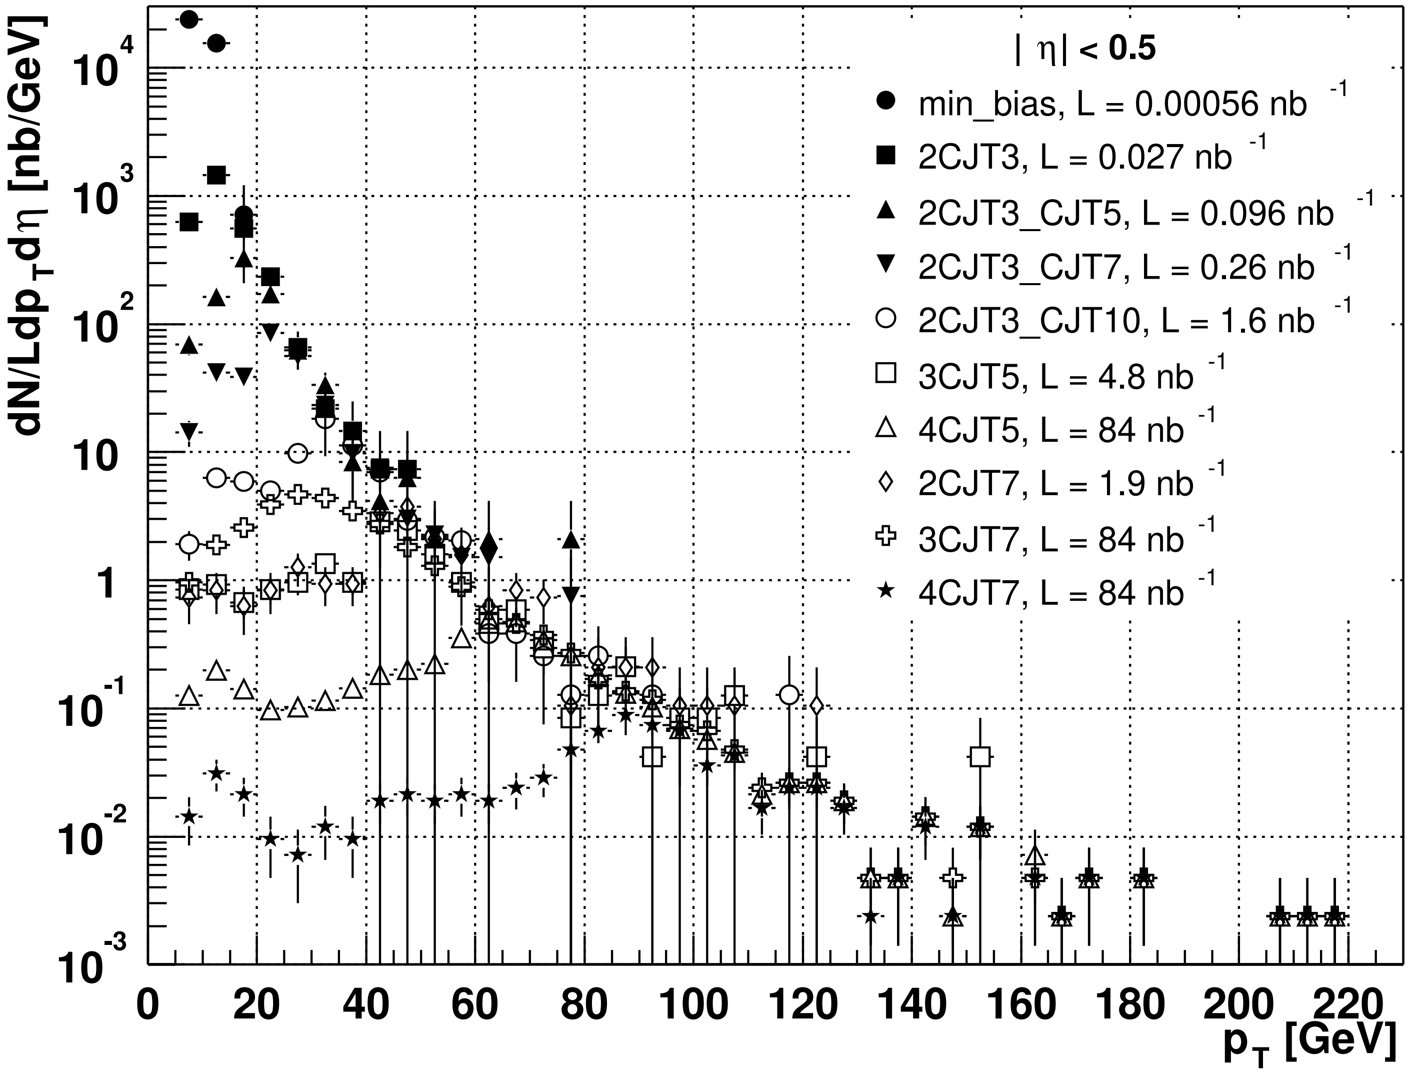
Jet triggers in the new data

- Run 142646
  - 2002 JAN 01, 00:28:39 - 14:36:36
  - *about* 285k *events*
  - global_CalMuon trigger *version* 3.10
- LBN files
  - stage1b
  - *preliminary numbers that has to be tested*
  - *prescale factors does not correspond to the* L1 *trigger luminosity find by* `lm_access` *package*
- L1 *and* L3 *trigger bits mess*
  - *array* L3bits *in the* EVENT *branch in root-tuples is not indexed by* L3 *trigger bit but by* L1 *trigger bit number*
  - *each* L1 *jet trigger has at least two* L3 *triggers*

Run 142646, no JES, JCCA



JES v1.0 and L1 trigger efficiencies

- ▷ the latest JES corrections (v1.0)
- ▷ L1 trigger efficiencies
  - provided by Frank Filthaut (Jet/MET ID meeting in Dec 05, 2001)
